

Commission contract

No One Collection offers bespoke design pieces for performers and individual requests, from one piece to a full or multiple outfits. Together, the design will be agreed on thanks to iconographic research, preliminary sketches, and fabric proposals.

Each commission starts at £150, which involves 10 hours of work and £50 of fabric and haberdashery. Depending on the price of the raw materials and hours of craftsmanship needed, the final price will be calculated by the designer and agreed upon by both the client and the designer.

Once the conditions of the project are settled, **we will need 50% deposit payment and this contract to be filled and signed to get the project started.** No fabric can be bought nor work be started without this insurance. It is up to the client to complete those as soon as possible to allow the designer to work in the best condition and meet the project deadline.

We will need a minimum of 2 weeks to complete the project, 1 week of discussion after the first email and 1 week of craftsmanship after the deposit payment. Each commission plan 2 meetings with the client, one to take the client's measurement and validate the design, the second for an intermediate or final fitting to validate the final piece.

Each commission includes one retouch of up to 3 hours of work to alter the piece if needed after the fitting. If the client wants further adjustments, they will need to pay an add-on to meet their demand.

Once the piece is complete, the designer will invite the client to a final meeting in his studio to collect the piece. **The final pricing should be paid before the client picks up the final piece.**

If the client is living abroad, No One Collection is happy to ship the piece abroad and work on measurements provided by the client.

In the case of commissions for a show, photo shoot or performance, **the designer is kindly requesting pictures and credit from the client** to keep a record of the piece and communicate on the project result.

Thank you for your interest and looking forward to collaborating with you.

Kindly,
No One Collection
